

# STATIC-99 R Training

Sponsored by ILATSA and Illinois SOMB

Thursday September 26, 2019  
Administrative Office of Illinois Courts  
3101 Old Jacksonville Road  
Springfield, IL 62704

*The Static-99R is the most widely used actuarial risk assessment tool in the United States. Understanding and being able to reliably score this tool is a necessary skill for individuals working with sexual offenders. The Static 99R identifies the RISK part of the risk-needs-responsivity model of treatment need identification. The STATIC 99R scoring rules were clarified in a recent revision. This training will cover the new scoring rules, implications for interpretation, and possible effects on estimation of sexual recidivism. This knowledge will be essential to making decisions about treatment programs and levels of supervision.*

Trainer: **Dawn M. Pflugradt, Psy.D.**

Dr. Pflugradt received her doctorate in Clinical Psychology in 2008. She received an additional graduate degree from the Medical College of Wisconsin in Clinical Bioethics in 2014. She is currently a Licensed Psychologist and Licensed Clinical Social Worker in the State of Wisconsin performing forensic and clinical work. She is employed by the Department of Health Services and the Wisconsin Department of Corrections conducting forensic risk evaluations. She also has a private forensic psychology practice and holds an academic position as an Associate Professor at the Wisconsin School of Professional Psychology, where she teaches Ethics and heads the Human Research Subjects Committee. Dr. Pflugradt is a member of the Scientific Advisory Committee for the International Association for the Treatment of Sexual Offenders (IATSO) and is and is recognized as an international expert in the area of female sexual offenders. She is a certified STATIC-99R and STABLE-2007 trainer. Dr. Pflugradt also serves on the Professional Issues Committee for the Wisconsin Psychological Association. In addition to her clinical and teaching duties, she conducts research and regularly presents at international conferences her research findings related to ethics, criminality, risk assessment and treatment of violence.
